

Midterm Exam 10/15

Will be held in class Thursday, Oct 15 from 8:00-9:15am

You bring:

- Pencil & eraser (No calculator necessary or allowed)
- One page helper sheet (8.5x11" front and back) that you create.

I will supply:

- scratch paper
- extra pencils/eraser
- clock

The exam covers all material in class through 10/15 and all homeworks and lab assignments.

To study:

- go through notes, making sure to understand concepts
- go through homeworks, making sure to understand why I fit models when and how to decipher output.
- labs - do I understand output from code?
- create a good formula sheet

Test format:

- Written exam
- conceptual questions / short answer
- give you code, ask what it's doing
- give you code, ask what's wrong with it
- pseudocode
- give you output from fitting models and have you interpret results.

Please e-mail me review questions by 10/5
